

QUALITY POLICY

MMRisk is committed to providing Industrial Process Risk and Safety consulting services of the highest quality. Our Quality Management System (QMS) complies with the requirements of ISO 17020, SANS 1461 and SANAS technical requirements including TR 54. We strive to ensure that our Major Hazard Installation (MHI) inspection services comply with the requirements of the MHI Regulations and the Department of Employment and Labour.

We commit to performing work impartially, continually improving the Quality Management system and are committed to fulfilling all regulatory requirements in our pursuit to be recognised as the best and shall ensure the following in our pursuit of our quest:

- **Honest:** We shall be honest in our dealings with all stakeholders;
- **Insightful:** We shall be insightful when providing opinions, doing so with the highest regard for context;
- **Responsive:** We shall be responsive to requests from Clients and provide a “Drop Everything” perception for our Clients;
- **Delivering Well:** We shall deliver all work well.
